

HI-TIP BUCKET

Features:

- ★ Increase dump height to meet your dump clearance requirements
- ★ Hydraulically cushioned heavy-duty cylinder prevents failure and rough operation
- ★ Every heavy-duty cylinder is made in-house and rigorously tested before shipment
- ★ Heavy-duty rubber rollback stops guarantee long carriage life
- ★ Visibility slots for better operator view (optional woven wire or solid spill guard)
- ★ Dual cylinder designs also available

Roll Out Buckets are especially popular for loading debris/green waste into tub grinders working around organic recycling facilities, landfill/transfer station, gravel pits and dairy's.

Custom sizes available.
